New York, March 19.

New York, March 19.—Although the market exhibited weakness at various points during the morning, its general action convinced the buils that it had been thoroughly liquidated. Despite successive bear raids on Lehigh Valley, Cheapeaks & Ohie, and Sugar, all of which fell sharply, buying orders came in steadily, siving the impression that the orders were taking on stocks under cover of forced selling elsewhere.

European huying in steel and railroad shares indicated the abstement of foreign liquidation which had been a depressing influence for some time. The advance of various specialties continued. The spectacular rise of United States Express was carried further, the price touching 16 %, compared with 54 a fortight ago.

Bonds were steady.

The market made some additional advance as a result of the large increase in United States Steel tounage figures and the heavy over-subscriptions to the Third avenue bend issues. Chesapeake & Ohio railled iriskly on official assurances that correct carnings were at the rate of 7 percent annually.
